

GenetiQs Project Follow-up Workshop Rockhampton

Thursday, 7 February 2019

11:00 am – 1:00 pm (light lunch provided at the event)

ROC~C/1.03, Rockhampton City Campus, CQ University

Have your say on the conduct of genomic research involving Aboriginal and/or Torres Strait Islander Queenslanders

The GenetiQs Project is a partnership between QIMR Berghofer and Queensland Genomics Health Alliance (QGHA) which aims to develop guidelines to assist researchers when undertaking genomic research in collaboration with Aboriginal and/or Torres Strait Islander Queenslanders.

Following on from our first consultation in August 2018, GenetiQs project team is organising a follow-up consultation workshop to provide an opportunity for

participants in Rockhampton to review the draft guidelines and inform the development of the final document.

This is one of seven follow-up consultations we have planned all throughout Queensland in the month of February. If you are interested in the health and wellbeing of Aboriginal and/or Torres Strait Islander communities, then we want to hear from you. For more information on GenetiQs project, please visit: www.qimrberghofer.edu.au/genetiqs-project/

Please RSVP no later than Wednesday, January 30 via this [RSVP link](#) or by emailing Dr Sid Kaladharan at Genetiqs@qimrberghofer.edu.au
